CAREER OBJECTIVE

As a fresher I am actively looking for job opportunity as a Java Full Stack Developer where I can leverage my expertise in Java, HTML, CSS, Bootstrap, JavaScript, React.js and Oracle to design and develop innovative web application and websites, while continuously enhancing my technical expertise and advancing my career in software development.

SUMMARY

Recent Computer Science graduate passionate about building robust web applications as a Java Full Stack Developer. Proficient in core Java, Spring Boot, and Hibernate for developing scalable back-end services and RESTful APIs. Experienced in front-end development using HTML, CSS, JavaScript, and modern frameworks like React.

EDUCATION

Bechelor of Technology in Computer Science Engineering	2021 - 2025
Meerut Institute of Technology, Meerut	
75.6%	
Intermediate	2019 - 2021
Inter Science College Hazaribagh	
76.8%	
Matriculation	2018 - 2019
Adiwasi High School Chappargarha	
78.4%	

TECHNICAL SKILLS

- **Programming Skills:** Core Java(Java 8), Advanced Java
- **Frameworks:** React JS, Spring & Spring Boot
- **Tools:** : Maven, Gradle, Eclipse, STS, VS Code, Postman, Junit5
- **Databases:** MySQL, Oracle, MongoDB
- **Version Control Tools:** Git

PROJECTS

- **Chit-Chat App**

- 1) A real-time messaging app that allows users to send and receive messages instantly.
- 2) Includes features like login, user profiles, private chats, and group chats.
- 3) Uses Firebase for instant message updates without page refresh.
- 4) Stores messages securely in a database with proper authentication.
- 5) Can be expanded with emojis, media sharing, notifications, and dark mode.

- **Weather Web App**

- 1) Displays real-time weather info using APIs like OpenWeatherMap.
- 2) Shows temperature, humidity, wind speed, and weather conditions.
- 3) User can search by city name or allow auto-location detection.
- 4) Simple UI with icons and dynamic backgrounds based on weather.
- 5) Can include 7-days forecast, unit conversion (°C/°F), and error handling.

- **Bank Management System**

- 1) Helps manage banking activities like deposits, withdrawals, and transfers.
- 2) Provides account creation, balance checking, and transaction history.
- 3) Admins can manage customer data, monitor transactions, and generate reports.
- 4) Secure login, encryption, and validation ensure safe financial operations.
- 5) Can be extended with loan management, interest calculation, and ATM simulation.

- **Product Management System**

- 1) Manages product details including name, price, category, and stock levels.
- 2) Allows adding, updating, deleting, and searching for products easily.
- 3) Helps track inventory and alerts for low-stock items.
- 4) Backend handles secure CRUD operations and authentication.
- 5) Can include analytics, barcode scanning, billing system, and report generation.

CERTIFICATIONS AND AWARDS

- Java Full Stack Certification from Naresh IT, Hyderabad.
- TechnoHacks Edu Tech Internship Program as a Web Developer.
- Cisco AICTE Virtual Internship Program 2024.

HOBBIES

- Coding
- Traveling
- Learning new software/tools
- Playing Cricket
